1 Please send in a Request Form, where you indicate the project type; you will be invoiced on a quarterly basis.

For more information see <http://cogeme.ex.ac.uk/bioimaging/index.html>).

2 These projects will automatically establish as soon as we get notification from the School of Biosciences. You will receive an Email informing you about this. Please use the Request Form in order to start the practical part.

3 For all grant application please contact the school manager, Linda Peka, to confirm costing.

4 Commercial customers should contact the Director of the Bioimaging Centre (G.Steinberg@exeter.ac.uk).

5 All other costs are subject to revision and may increase due to raising running costs. Newest information will be published on the web page.

6 Prices for F-project will be fixed in February. Therefore they may not reflect the actual "full economic costs"

7 Student-projects are designed to support PhD students; undergraduate students need to be supervised by a PostDoc.
